

## **Instructions for Financial Statement of Non-Immigrant Students**

- Proof of the sponsor's employment and monthly salary.
- Copy of the sponsor's bank statements for the past 12 months specifying monthly averages sufficient to cover the student's total annual program cost (less scholarship, grants or awards if any) or original letter from bank in letterhead, specifying the sponsor's monthly average balance for the past 12 months (must specify currency).

All documents require an official English translation. If no currency is specified we will assume the amount is in the student's country currency and we will make the conversion to US dollars.
